- React.js, Next.js
- JavaScript, TypeScript
- Java (Spring | Spring Boot)
- Python, FastAPI
- Node.js
- Scala
- GitHub, GitHub Actions
- Jenkins, Docker
- Kafka
- SQL, Firebase, MongoDB
- GCP, AWS
- OpenAI, Assembly AI
- ASR model fine-tuning & creation

SAMUEL ASHRAFF

FULL-STACK SOFTWARE ENGINEER
WITH 4+ YEARS EXPERIENCE BUILDING
PRODUCTION WEB SYSTEMS

PROFESSIONAL PROFILE

Ambitious Software Engineer with a master's degree in Computer Science from Aalto University, Finland, (**Finland's No.1 ranked university overall and in Engineering & Technology**) with over four years of combined industry experience. Proven success in building web applications with CI/CD pipelines, implementing automated testing, and direct client collaboration. Known for a hands-on, collaborative approach and a strong sense of ownership from concept through to deployment.

WORK EXPERIENCE

Apr 2025 - Present

- Took a planned gap year focused on skill development and personal projects.

Software Developer at Profium, Espoo, Finland

Sep 2021 - Apr 2025

- Progressed from a part-time trainee role to full-time full-stack developer, delivering full-stack features with Java v.11+ (Spring), React, and Jenkins CI/CD pipelines in an Agile and Test-Driven Development Environment, supporting systems with hundreds of thousands of data entities.
- Served as the main technical point of contact for several customer projects in a high-ownership role, delivering several end-to-end features and ensuring operational stability on production systems.
- Completed master's thesis in collaboration with the company, researching state-of-the-art Automatic Speech Recognition (ASR) technologies and their practical applications using OpenAI's Whisper, Assembly AI, and Vosk, as well as AWS.
- Spearheaded development of automated testing using Robot Framework and JUnit resulting in reduced manual testing.

Software Engineer Trainee at IOXIO, Helsinki, Finland

Jun 2020 - Aug 2020 & Jun 2021 - Sep 2021

- Delivered a data definition view tool built with Next.js and Python in an Agile development environment.
- Worked with Azure CI/CD pipelines.
- Helped deliver a real-time prototype API interface for the Finnish Tax Administration using FastAPI, Firestore, and OpenAPI Swagger.

EDUCATION

Master of Science and Technology, Computer Science, Aalto University, Espoo, Finland 2025

- Master's Thesis Voice-based interaction with digital services centered around Automatic Speech Recognition
- Majored in Web Technologies, Applications, and Science

Bachelor of Science and Technology, Computer Science, Aalto University, Espoo, Finland 2023
